New York State Champion Ash Tree
Letchworth State Park

Image on Cover:

The White Ash tree listed on the *New York State Big Tree Register*, as of December 2016. The NYS Department of Environmental Conservation maintains the *Big Tree Register* in an effort to recognize trees of record size and promote an interest in their care and preservation. The EMC sponsored a tour of Letchworth State Park, led by Park Naturalist Douglas Bassett, which included this State Champion Ash tree. The tree is at risk for infestation by the invasive species, Emerald Ash Borer.
